What is the PancakeCam?

The PancakeCam is a remote controlled webcam that we have mounted on the roof. We've installed the camera there so folks from all over can visit Surfside Beach wherever they may be. In front of the restaurant is the 'Hi Mom!' spot. You can call a friend or loved one and direct them to our web address:

www.pancakecam.com

There they can take control of the PancakeCam and move the camera to the Hi Mom! spot. They can zoom in and get a snapshot and save it on their computer. We also have a Davis Weather Station installed on the roof. This station produces up to the second weather updates for this area. The data from the station is also published on our web site. In addition to the PancakeCam and weather station, you can find our full menu, daily specials, camera and weather faqs, local links and weather links on the site. If you've brought in a wireless enabled laptop you can also control the PancakeCam and check the weather conditions and forecast while you dine.

Thank You for dining with us!
